In order to ensure that we make the cover fit your tub correctly, measure accurately and provide the following information. **PLEASE SUPPLY ALL MEASUREMENTS IN INCHES ONLY (i.e. 86" NOT 7' 2")**. Measurement "D" is very important; it is used to verify the size of the corners.

1. Please specify the manufacturer and model of tub if known _____
2. Enter measurements of tub next to the appropriate shape above.
3. Length of skirt _____, if not specified, the standard 2" skirt will be supplied.
4. Please note on drawing if there is a preference for the hinge direction, the standard is dividing the longer side in two.

- UPGRADES & SURCHARGES:**
- Upgrade to high density foam¹, \$20.00
 - Local² on-site measuring³, \$10.00
 - Local² delivery⁴ of new cover, \$10.00
 - Local² disposal⁴ of old cover, \$10.00

1. Upgrading to high density foam increases the strength of the cover significantly and the insulating value slightly, whereas increasing the thickness adds to the insulating value significantly and strength slightly. Consider upgrading to high density if cover is over 90 inches.
2. Local means Vancouver, B.C. and the immediate surrounding areas, please call to confirm our coverage area.
3. We only take responsibility on mis-measured/mis-fitting covers if we measured for the cover or if cover not made to the ordered measurements.
4. Subject to W.C.B. limitations and regulations. The old cover should be out front and ready to be loaded into our truck on delivery day, especially if it is heavy and /or needs to be carried a long distance or access only through a house. We usually have only one person making the delivery/pick-up.
